ABW’s TP CoE training for GAZ-SYSTEM S.A.

On September 6, 2021, ABW’s TP CoE and CAT officers conducted training in the field of terrorist prevention for the management of GAZ-SYSTEM S.A.

During the meeting, among others, the principles of appropriate response in the event of a terrorist event, such as: a mass killer attack or an attack with the use of explosives. The issues related to the current level of exposure of Poland and critical infrastructure facilities to terrorist acts of violence were raised. The training was aimed at increasing the anti-terrorist awareness of the audience, establishing training cooperation between the Internal Security Agency and the strategic energy company GAZ-SYSTEM and presenting practical tips and recommendations in the field of prevention and counteraction terrorist incidents in the context of the country's energy security.
