Participation of TPCoE during the 10th Student Communication Meeting at The John Paul II Catholic University of Lublin

KUL

On 12 May, officers of the TPCoE conducted a day-long training on terrorist prevention during the National Scientific Conference organised by the Scientific Circle of Journalism Students of The John Paul II Catholic University of Lublin.

The 10th Student Communication Meeting was held at the John Paul II Catholic University of Lublin on 12 and 13 May. This nationwide scientific conference on the responsibility of media users was attended, among others, by researchers from scientific centres from all over Poland, journalists, journalism students and high

school pupils with a journalistic profile.

During the event, representatives of TPCoE gave presentations on recommended behaviour in the event of a terrorist attack, recognising and preventing the process of radicalisation, the role and significance of extremist propaganda and conducting responsible communication by the media before, during and after a terrorist event.
