TPCoE training for students of Polish Air Force in Dęblin

Law

On 18 October 2022, TPCoE conducted a training course on anti-terrorist prevention for students of Polish Air Force University in Dęblin.

The event included a series of presentations on threat typologies and best practices, as well as recommended behaviour in the event of a terrorist incident. On this occasion, the social campaign 4U! conducted by TPCoE was presented. The issue of proper behaviour in a hostage situation was also raised, as well as how to inform dedicated services of the threat that has occurred.

The training is part of an educational campaign initiated by TPCoE to raise awareness also among institutions training military and civil aviation personnel, in particular to build the resilience of airports as critical infrastructure facilities against terrorist acts of violence.
