TPCoE training for Mazovian Voivodeship Office

Szkolenie CPT ABW dla Mazowieckiego Urzędu Wojewódzkiego

On 21 and 24 February 2023, TPCoE experts conducted training sessions for the staff of Mazovian Voivodeship Office.

The first training was dedicated to the challenges of countering radicalisation leading to extremism and terrorism. The importance of shaping an appropriate information policy of a state institution in terms of levelling terrorist threats was discussed. Recommended ways of conducting crisis communication in the event of a terrorist incident were also indicated.

The second training course dealt with cyber security in the context of the threats posed by the use of the internet and new technologies as part of terrorist activities. The Centre's expert presented recommendations for the safe use of official and private electronic devices and discussed the most common types of 'cyber threats'.

In the near future, TPCoE is planning to provide further training for Mazovian Voivodeship Office.
