Conference 'Security is the most important – Polish schooling', Katowice 7 March 2023.

On 7 March this year, a conference on security in schools in the context of terrorist incidents was held at the Youth Cultural Centre in Katowice. The meeting was the first in a series of planned events related to raising awareness among representatives of Polish education about terrorist threats. The conference was attended by principals and staff of school establishments in Katowice invited by the organiser. The main speaker was an expert from TPCoE, who conducted a training course on building information security policies and counter-terrorism prevention.

The meeting provided knowledge on best practices and recommended behaviour in the event of a terrorist incident - based on 4U! social campaign.

The training is part of TPCoE's efforts to build the resilience of Polish educational institutions against extremist-terrorist threats.

Training course by TPCoE for the teaching staff of the School and Kindergarten Complex in Łady

On 8 March this year, TPCoE experts conducted a training session for the School and Kindergarten Complex in Łady on building information security policy and anti-terrorist prevention.

During the meeting, knowledge of best practices and recommended behaviours in the situation of a terrorist incident - based on 4U! social campaign - was imparted, and issues concerning building an organisation's security policy in the context of existing threats were raised.

The training is part of TPCoE 's efforts to build the resilience of Polish educational institutions against extremist-terrorist threats.
