Training for the University of Szczecin

Szkolenie dla Uniwersytetu Szczecińskiego

On March 29, 2023, a training session on anti-terrorism prevention was held at the Faculty of Humanities of the University of Szczecin.

The meeting was attended by representatives of the university's scientific staff. Special attention was paid to issues related to the recognition of such threats in their earliest stage. In this context, it was discussed, among other things, the process of radicalization, leading to violent extremism and terrorism, to which minors in particular are susceptible. Issues of recommended conduct during the immediate occurrence of terrorist incidents, e.g. related to the so-called "suspicious package" were also presented.
