Training for Energa Invest Private Limited Company

On April 13, 2023, an expert from TPCoE conducted a training course on anti-terrorist prevention for members of the board of directors and executives of Energa Invest Sp. o.o. in Gdansk.

During the meeting, in particular, the recommendations of the 4U social campaign were discussed, indicating recommended ways of proceeding in the event of a terrorist threat (also in the time preceding such an event), with particular emphasis on entities of sensitive importance for the interests of the state.

The training was a continuation of TPCoE previously undertaken efforts to cooperate with business entities of key importance to Poland's energy security (Energa Invest is a member of the ORLEN Capital Group).
