Training for the Government Agency for Strategic Reserve

RARS

On April 20, 2023, a TPCoE expert conducted a training course on anti-terrorism prevention for executives of Government Agency for Strategic Reserve.

Among other things, they discussed issues related to recognizing the symptoms of a terrorist threat, as well as recommended courses of action in the event of the occurrence of such an attack, such as with explosives or with the use of a so-called dangerous package.

The training is part of TPCoE ongoing activities related to raising awareness of public administration personnel of threats to state security.
