Presentation by TPCoE expert at the University of Wrocław

UWr

On 25 April 2023, TPCoE expert took part in an informative and training Knowledge-Safety-Principles-Application expert conference organised by University of Wrocław Centre for Security Studies and Education and TPCoE, in cooperation with the Department of Security Sociology and Education of the University of Wrocław Institute of Sociology, the University of Wrocław Academic Career Office and University of Wrocław Faculty of Social Sciences.

The presentation by TPCoE expert was devoted to discussing the recommended way of in the event of a terrorist incident, including a mass killing attack, the

danger of the perpetrators using explosive devices, taking into account elements of the behaviour of the perpetrators of attacks, as well as issues related to notification of emergency services.

The training is another in a series of training sessions as part of a campaign to raise awareness among staff at private and public universities to build public resilience to possible terrorist threats.
