TPCoE training for employees of Orlen Ochrona Sp. z o.o.

Szkolenie dla Orlen Ochrona Sp. z o.o.

On 04 September this year, TPCoE conducted a training course on building information security policy in the context of counter-terrorism prevention, dedicated to the staff of Orlen Ochrona Sp. z o.o..

The meeting was devoted to issues related to building an organisation's security policy in the context of current threats, including threats from state entities and terrorist organisations.

During the training, the participants were acquainted with forms and methods of collecting information with the use of technical devices, as well as tactical aspects and threats resulting from the use of the so-called insider by a potential adversary.

Particular emphasis was placed on issues related to the vulnerability of persons and objects to unauthorised interference and recommended behaviour in the event of the detection of such an

event, as well as proper preparation for foreign delegations.
