TPCoE training for employees of the General Directorate for National Roads and Highways (GDDKiA)

Szkolenie CPT ABW dla pracowników Generalnej Dyrekcji Dróg Krajowych i Autostrad (GDDKiA)

On 6 September this year, TPCoE conducted another training on anti-terrorist prevention for representatives of the General Directorate for National Roads and Highways.

The meeting was devoted to issues related to the discussion of best practices and recommended behaviour in the situation of a terrorist incident - based on the 4U! social campaign - on mass killer activity, the perpetrator's use of explosives and contamination agents.

The training is part of the Centre's efforts to increase the resilience of government agencies responsible for road and transport infrastructure security in the Republic.
