# Training for Radio Kielce

Szkolenie dla Radia Kielce

## On 25 September 2023, TPCoE experts conducted a training event for employees and management of Radio Kielce.

The event included a discussion of the recommended course of conduct in the event of a terrorist incident, including but not limited to a mass killer attack.

The meeting was also devoted to issues related to building an organisation's security policy in the context of current threat vectors, including terrorist threats. The training discussed, among other things, issues related to the vulnerability of people and facilities to unauthorised intrusion.

The training is part of an ongoing awareness-raising campaign by TPCoE, which fosters an increase in the knowledge of regional radio station personnel about threats to national security.
