Training at the Chęciny Municipality and Town Hall

Szkolenie w Urzędzie Gminy i Miasta Chęciny

On 11 December 2023, an TPCoE expert conducted a training course for teachers and employees of schools located within the jurisdiction of the Chęciny Municipality and Town Hall in the Świętokrzyskie Voivodeship.

During the event, issues related to anti-terrorist prevention, i.e. recommended ways of behaviour under the 4U! procedure, which are applicable in the event of a terrorist incident, were presented.

The training is an element of the Centre's efforts to raise anti-terrorist awareness and build the resilience of local communities in the Republic of Poland.
