A series of training courses for the Agricultural and Food Quality Inspectorate

CAT ABW experts conducted, from 30 July to 8 October 2024, a series of training courses for employees and management of the Main Inspectorate of Commercial Quality of Agricultural and Food Articles in Warsaw and the Inspectorate's Research Laboratories (Lublin, Gdynia, Olsztyn, Białystok, Kielce, Poznań).

During the trainings, issues related to anti-terrorist prophylaxis, i.e. recommended manners of behaviour under the 4U! Campaign, which are applied in the event of a terrorist incident, and topics concerning cyber security were presented.

The trainings are an element of the ABW's efforts to raise anti-terrorist awareness and build resilience against threats among the employees of institutions and research centres involved in maintaining the quality of food products.
