2nd Conference of the
National Monitoring Centre
for Emergency Medical
Services

On 18-19 November 2024, the National Emergency Services Monitoring Centre conference was held.

The main objective of the event was to exchange experiences between emergency services, with a particular focus on enhancing cyber security and counter-terrorism prevention. The event was attended by representatives of entities responsible for national security, as part of the activities of government and local government administration, as well as uniformed services. The conference was an excellent opportunity to exchange experiences and best practices in the field of security in the context of cyberspace and appropriate response to terrorist threats. Thanks to the participation of experts in panel discussions, participants had the opportunity to better understand the changing needs of the security environment, as well as the characteristics of future threats.
