## Training for PGE Energia Ciepła employees in Kraków

Training for PGE Energia  
Ciepła employees in Kraków

## On 4 July 2025, a CAT ABW expert conducted a training session for employees of PGE Energia Ciepła in Kraków.

The training was devoted to discussing the recommended way of behaving the so-called 4U procedure! procedure in the event of a terrorist incident, including a mass murderer attack, the danger of using explosives or another dangerous tool during acts of violence, as well as issues related to notifying the services of the threat.

The training is another in a series of trainings conducted by CAT ABW, as part of a process of education for raising anti-terrorist awareness among employees of institutions of strategic importance to state security.
